
8.10 TRANSPORTATION OF STUDENTS

The Board of Education recognizes that a safe, reliable, and equitable transportation system supports access to education for many students. The *School Act* does not require school districts to provide transportation services. Transportation services are provided at the discretion of the Board and are not a right or entitlement.

Transportation services must comply with the *School Act*, the *Motor Vehicle Act* and *Motor Vehicle Act Regulations*, and Ministry of Education and Childcare guidelines. The Board strives to offer transportation where feasible, considering safety, efficiency, equity, inclusion, environmental stewardship, and fiscal responsibility.
